elite restoration carpet cleaning

RECOMMEND FOR:
Lightly soiled carpets **ONLY**.

RECOMMEND FOR:
Lightly to medium soiled carpets.

RECOMMEND FOR:
Heavily to extremely soiled carpets.

PROCESS INCLUDES:

Treatment

- Enzyme based encapsulator is injected into the carpet fibers with a buffer unit using a commercial carpet scrubber.

Cleaning

- Dirt is scrubbed loose from the fibers while the encapsulates are evenly distributed over the carpet.

Finishing

- During the drying process the encapsulator surrounds and traps dirt.
- After drying, client vacuums treated carpet. This will pick up encapsulated dirt leaving 20% of the encapsulate in the carpet to continue cleaning for up to six months.

PRICE: .20¢/sq. ft.
