# Quick Dry Cleaning

**Standard Carpet Shampoo Cleaning**

**Recommend For:**
Lightly soiled carpets ONLY.

**Process Includes:**
- **Treatment**
  - Enzyme based encapsulator is injected into the carpet fibers with a buffer unit using a commercial carpet scrubber.
- **Cleaning**
  - Dirt is scrubbed loose from the fibers while the encapsulates are evenly distributed over the carpet.
- **Finishing**
  - During the drying process the encapsulator surrounds and traps dirt.
  - After drying, client vacuums treated carpet. This will pick up encapsulated dirt leaving 20% of the encapsulate in the carpet to continue cleaning for up to six months.

**Price:** 
20¢/sq. ft.

**Additional Special Treatment Services Available** *(If Needed)*
